Organizations spend considerable resources taking staff to international meetings, often without understanding how these meetings work.

• **How to Lobby at Intergovernmental Meetings** is a unique guide on how to participate and be heard at intergovernmental meetings, whether as a stakeholder or a government official.
• Based on 10 years of lobbying at the international level this book provides detailed advice on the preparation and presentation of ideas, the consultation and negotiating process, and practical and logistical matters. It contains a wealth of essential reference material including tips for navigating the intergovernmental hot spots of New York and Geneva, lists of UN commissions, conferences and permanent missions, contact details of key international organizations, NGOs and stakeholder groups and useful web addresses.

Multi-stakeholder Processes for Governance and Sustainability
Beyond Deadlock and Conflict
Minu Hemmati

Multi-stakeholder processes (MSPs) bring together all those whose interests are at stake in crucial social, economic, developmental and environmental debates, and for whom finding practical solutions as well as ways in which these might be implemented is essential. This new political culture aims to move beyond deadlock or conflict towards a more equitable and effective process. This practical guide explains how MSPs can be organized and implemented in order to resolve the complex issues in and around sustainable forms of development, whilst recognizing the rights of, and risks faced by, all parties. It includes detailed examples of MSPs in practice and provides functional checklists, explaining how to bypass adversarial politics and achieve positive results.
